Description/Objective:
The Department of Art offers the Bachelor of Arts degree with options in Studio Art or Graphic Design and the Bachelor of Science degree in Art Education for K-12 teachers.

Career Opportunities:
The art program provides training that may lead to various careers in the applied areas of the visual arts. It also prepares students who wish to pursue graduate study in the fine arts, art history and museum or gallery fields. The Art Education major leads to careers in teaching and related fields.

Art courses and programs provide opportunities for majors to identify their potential as creative individuals in the visual arts. Students should see their advisors and meet prerequisites before registering for individual classes, which must be taken in their proper sequence so as to ensure a strong foundation for pursuit of advanced work.

High School Background:
Specific high school courses in art are not required, although previous study is helpful.
