Answer the following questions:

1. Have you been in the United States for one full academic year?
2. Is an internship/clinical/student teaching experience required for your major or program?

If you answered YES to BOTH of the above questions, you are eligible to seek an internship. If you cannot answer yes to both of these questions, you may need to wait until you are eligible or see the international programs office to discuss your options.

Helpful tips when searching for an internship:

- Find out if the internship experience requires you to pay a fee to participate. Typically, this occurs when you use national programs or organizations to help you secure an internship experience.
- Keep in mind your availability (number of hours willing/able to work per week, class schedule, etc.) and your access to transportation when applying to internships.
