Course Description:
To enhance the counseling skills and conceptualization processes acquired through
direct counseling experience, supervision and classroom interaction. The course is
designed to prepare counselors for development as independent professional
counselors. The evidence provided through the quality of the course requirements,
demonstration of maturity, personal insight and professional presentation as
appropriate to the counseling profession, will determine the course grade.

The Counselor Education Program requires students to complete a supervised
counseling practicum of 150 hours. 40 of those clock hours must be direct service
work with appropriate clients. The remaining 110 hours provide opportunities to
gain experience in the activities that a regularly employed staff member in a
counseling setting would be expected to perform.

The primary intention of the counseling practicum experience is to provide growing
exposure and orientation to a relevant professional setting. The responsibility of
supervision is shared between the university and the practicum site supervisor. The
expectation of on-site practicum supervisors is to provide ongoing guidance and
orientation to graduated relevant site experiences.

Required Texts and/or Materials:

**Outcome Goals of Practicum Supervision:**
A goal of supervision is to help counselors learn to think about clients and their work with them, not to provide directives about particular client or events in therapy, by:

- Assisting counselors to *develop and test hypotheses* in session with the client and that *all* interventions are based on hypotheses about the client and the therapeutic interaction.
- Encouraging counselors to *shift* from a performance laden stance (“Did I do this right?”) to that of curiosity (What did I learn? Was my hypothesis confirmed or not? Do I have new information that allows me to make a new hypothesis?).
- Preparing counselors to *manage* the frustration and tension associated with the ambiguity of the counseling process.
- Facilitating the counselors’ *self-awareness and understanding* with regard to their influence (directly or indirectly) on the counseling process and to develop skills in objective self-reflection.
- Helping counselors to *identify and develop skills* not only as a counselor, but also as an advocate, educator, systems consultant, and collaborative group facilitator.

**Anticipated Performance Goals:**
- To demonstrate *knowledge of developmental stage* level of clients.
- To demonstrate *treatment planning* that matches the needs of the client.
- To provide honest *feedback* to themselves and their peers for increased professional awareness and development.
- To demonstrate *professional risk taking* in their reflection, understanding, and application of counseling skills.
- To demonstrate *counseling techniques* that are congruent with the working theory, quality/stage of the counseling relationship, and the needs of clients/families.
- To demonstrate *ethical and professional standards* consistent with the ACA ethical guidelines and the profession of counseling in the community and school settings.
- To fulfill the requirements of the course at a level of *quality* consistent with advanced graduate training and the counseling profession.

2. Show proof of professional liability insurance due January 16.

3. Identify a Practicum Counseling Site and perform in a professional manner
   The practicum student is required to identify (in consultation with his/her advisor and university supervisor) a practicum site for performing the counseling duties relevant to the setting (i.e. school, community). Prior to or early in the semester, the student is required to arrange an initial meeting with him/herself, the on-site supervisor(s), and the university instructor. This meeting can be in person or by phone, depending on distance. This is to be set up if at all possible by January 16. The on-site supervisor needs to sign a Practicum/Internship Agreement Form.
This is due to the instructor by January 16 or as soon as possible following.

The practicum student will perform in a professional manner adhering to ACA ethical standards, acting in a professional manner with site professionals as well as CE faculty, and taking appropriate responsibility for his/her learning goals.

4. Submit Practicum Learning Goals

The practicum student will be required to identify and submit learning goals for the course. The student will do this in consultation with his/her on-site supervisor. These are due on D2L by January 26. An example of Practicum Learning Goals is on D2L.

5. Participate in and record a minimum of 150 hours of related practicum activities

- 40 hours of Direct Contact (individual and/or group counseling)
- 110 hours of Indirect Contact (supervision, consultations, staffing, case note preparation, treatment planning, etc.) A copy of the final record of hours is due to the instructor by May 8.
  - Direct contact hours include direct participation in client-related volunteer activities including site programs, client activities such as play therapy, arts/crafts, social opportunities for clients, intakes, interviews, (in person or via phone), individual or group counseling (shadowing does NOT count), and testing. Co-counseling is considered direct service.
  - Indirect contact hours include case consultation with supervisors or peers, case notes, case management, paperwork, preparation for sessions, class attendance, supervision, research on topics related to counseling the population with whom interns work, outreach, presentation or attendance at workshops/conferences.

6. Peer Supervision

Students who are presenting a case must provide a brief overview of the client’s background information with identified concerns and defined goals for the case presentation. The overview is to be placed on D2L in the dropbox for case presentation, as well as presented in class.

Students are required to ask the group for strengths and insight into problem areas for the counselor. Cases will consider relevant ethical issues and standards pertinent to case management.

Format provided as follows:
  - Identifying information (Age, education, and other demographic info):
  - Presenting underlying concerns
  - Diagnosis (if one is present)
- Brief overview of background related to concerns (developmental, emotional, behavioral characteristics, important relationship issues, also discuss strengths)
- Treatment history (previous treatment, length and types of treatment, attitude toward treatment, progress)
- Counselor’s concerns or questions (impasses, confusing dynamics, new interventions, personal reactions)
- Peers will provide verbal and written feedback on the tapes in class using the CED Counseling Skills Scale Tape Evaluation

Practicum Grading Scale
Evaluation of clinical skills will be based on the following 5-point Scale. Each point has been defined according to the skill competencies and/or deficiencies. Students are also to use this scale when providing a self-assessment of their tape review for their Feedback Narrative.

1. Unacceptable Skill Level. One indicates the use of inappropriate or lack of skillful interventions. Examples include: inability to listen, self-disclosure, praise, advice giving, premature problem solving, judgmental/disrespectful interactions, close-ended/binary questions, seeking reassurance from the client, etc. Relationship with client inappropriate (e.g., lack of boundaries, offensive, rejecting, judgmental, lack of empathy/understanding, social rather than therapeutic, inability to understand the client’s world view, impose own world view, etc.).

2. Poor Skill Level. Two indicates an over reliance on one or two skills (e.g., overuse of encouragers, solicits information repeatedly without using the information provided by the client, unable to focus the session, etc.). The counselor provides a low level or minimal response to the client. The counselor does not use a variety of interventions and is not able to utilize client information. Lack of connection in the client/counselor relationship. Needs improvement in listening and communicating understanding to the client.

3. Average Skill Level. Three indicates an ability to demonstrate the basic communication skills (e.g., listening sequence, clarification, paraphrasing, summarization, reflection of content, etc.). The counselor is able to utilize client information. Beginning to connect with client and foster a therapeutic relationship and understanding.

4. Good Skill Level. Four indicates an ability to demonstrate advanced counseling skills (e.g., advanced empathy, confrontation, immediacy, reflection of feeling, reflection of meaning, interpretation, metaphor, reframe, etc.). The counselor is able to use and add to client information/story. Appropriate risk taking on the part of the counselor is evident. Client/Counselor relationship includes both
safety and risk taking, comfort and discomfort, etc. Counselor is able to help the client understand her/his own story better than before they began talking.

5. Excellent Skill Level. Five indicates an ability to consistently demonstrate all the skills, both basic and advanced, depending upon the client and the counselor/client interaction. Counselor is also able to demonstrate creativity, insight, identify patterns or themes in client behavior/thoughts, feelings, etc. Counselor interventions and relationship with the client are therapeutic (i.e., lead to change) and contextually based. The counselor contributes consistently and profoundly to the story/interaction.

**The instructor may also adopt other evaluation measures, which would be discussed with students.

Other variables which influence grade:

*Student’s ability to utilize and integrate feedback from tape reviews.

** Student’s ability for self-reflection and self-critique in providing alternative interventions.

7. Audio/video tapes/transcripts

Students will be prepared to present one organized and relevant audio/video case to group supervision meetings during their practicum experience. Each tape must be at least 15 minutes in length.

- The students will write a Feedback Narrative noting their own strengths and areas of improvement as described in the evaluation of clinical skills above. These will be put in the D2L dropbox along with the tape transcripts.
- A transcript of 5 minutes of one of the counseling sessions will be included with the tape with skills used in the session. This will be put on D2L in the dropbox for transcripts. A score of 16 or more is needed to avoid turning in a second transcript.

**Grading:**

Letter grade only. A final course grade will be determined by the student's overall performance throughout the practicum experience.

If for any reason a student does not meet the criteria set forth in this syllabus/practicum course, he/she may receive a “C” or not ready grade for internship. In this case and depending on the recommendation of the course instructor, the student may need to extend his/her practicum, drop to a professional development degree, or withdraw from the CE program. The current retention policy is outlined in the student handbook.

Students will be evaluated with regard to the quality and professionalism expected of counseling professionals. Prompt attendance, reflective preparation, peer collaboration, cooperation with Practicum supervisors and course instructor as well synthetic thinking are aspects of professional leadership and expected of students throughout the course.
