GEP Course Renewal Process

The GEP subcommittee will be processing GEP course renewals for those courses that were rolled over from the University Studies Program to the GEP in Fall 2011. The schedule is as follows:

- 2014: Goals 1-5, Writing Intensives
- 2015: Goals 6-7, Oral Communication Intensives
- 2016: Goals 8-10, Mathematics/Statistics and Critical Analysis Intensives, Physical Development and Wellness

All renewals for 2014 are due on September 24, 2014. GEPS will review the renewals at their meetings during the Fall semester and either approve the renewals or request clarification. For those renewals that require clarifications, department representatives will be invited to a GEPS meeting in the Spring semester to defend their renewal. Courses in goal areas 1-5 and the Writing Intensives that are not approved (or for which a renewal request was not submitted by September 24, 2014) will be dropped from the GEP effective Fall 2015, and will have to be sent through the normal new GEP course approval process to be reinstated.

There is a new “Renewal Form for General Education Program Courses” that should be completed along with the appropriate signatures. GEPS would like to see assessment data on GEP courses, however, we understand that there was no requirement for assessment for courses approved under USP. As such, we are asking that the renewal form be accompanied by one of the following:

1. A grid showing the student competencies for the appropriate goal area or additional requirement (intensive or physical development and wellness) and assessment data as evidence.

2. A grid showing the student competencies for the appropriate goal area or additional requirement (intensive or physical development and wellness) with a plan for what assessment data will be collected for the next review.

Courses that meet one of the additional requirements (intensive or physical development and wellness) must meet 100% of the student competencies. As such, the grid for courses that meet one of the additional requirements (intensive or physical development and wellness) must include all of the student competencies. Courses in the goal areas, however, are only require to meet 51% of the student competencies. As such, the grid for courses in the goal areas do not need to contain all of the student competencies.

See the GEP website (http://www.winona.edu/gep/Images/GEP10-6-11Document.pdf) for student competencies for each goal area or additional requirement (intensive or physical development and wellness), and example proposals and corresponding grids. The renewal form is available at http://www.winona.edu/gep/Media/GEPS_Form_for_Renewing_GEP_Courses_Regulation_3-4_010514_editable.pdf.
