There are no formal restrictions on non-credit courses and credits. That is, the course must contain similar content, goals, objectives, and learning outcomes. This information is provided as a reference. Actual course credit hours may vary. Content, outcomes, and credit hour value for course curriculum must be approved by the Academic Affairs Curriculum Committee (A2C2).

** Each individual credit hour represents one hour (50 Min.) of lecture and two hours of non-classroom study (i.e., Homework).
