Notice to students regarding maximum course and credit load during Summer Session

Although Summer Session is a great time for students to “catch up, keep up, and get ahead” in their academic coursework, students are strongly advised NOT to enroll in more than six (6) credits in any one summer session.

Typically summer courses are offered during one of the following sessions:
- May Session – 3 weeks;
- Summer Session 1 (June) - 5 weeks;
- Summer Session 2 (July) - 5 weeks.

A student may register for up to 19 credits for the entire summer term; however, students are expected to dedicate the same amount of time to a summer session course as they would to a course offered during a 15-week semester. A summer session course is equivalent in its content and learning outcomes to the same course offered during the fall or spring semester.

Should a student enroll in more than six (6) credits for May Session, the University will contact the student to discuss if it is reasonable and appropriate.
