FINANCIAL AND STAFFING DATA SHEET

Course or Program GSAS

Include a Financial and Staffing Data Sheet with any proposal for a new course, new program, or revised program.

Please answer the following questions completely. Provide supporting data.

1. Would this course or program be taught with existing staff or with new or additional staff? If this course would be taught by adjunct faculty, include a rationale.

Existing staff

2. What impact would approval of this course/program have on current course offerings? Please discuss number of sections of current offerings, dropping of courses, etc.

No courses will be dropped. This course is just being cross listed.

3. What effect would approval of this course/program have on the department supplies? Include data to support expenditures for staffing, equipment, supplies, instructional resources, etc.

None

WINONA STATE UNIVERSITY
PROPOSAL FOR A REVISED PROGRAM

This form is to be used to submit a proposal for a revised undergraduate or graduate major, minor, concentration, or option. Every item on this form must be completed prior to submission to A2C2 for the proposal to be considered for approval. The department proposing a new program must include a *Financial and Staffing Data Sheet* and the *New and Revised Course and Curriculum*, for complete information on submitting proposals for curricular changes.

Note: Regulation 3-4, *Policy for Changing the Curriculum*, allows a department, with its dean's approval, to change up to two courses per year within an existing major, minor, concentration, option, etc., without seeking review of A2C2 and/or graduate Council, provided that (1) the total credits do not increase or decrease for the major, minor, concentration, option, etc., and (2) the change does not affect other departments or the University Studies or General Education Programs. Please use the *Notification form* for these changes instead of this *Proposal for a Revised Program*.

Department: Global Studies and World Languages

Title of Program: Global Studies

This is a revised X Major Minor Concentration X Option Other
Major/Minor Code of this program GSAS, (explain)

Total Semester Hours 49

Please provide all of the following information:

(Note: Other documentation may not substitute for this. All information must be on this form)

A. A statement of major focus and objectives of the revised program (Include this even if it has not changed)

The major objective for the revisions of the Global Studies Major in all its four Options is to update it by deleting courses that will no longer be taught and including new courses that have been introduced. This is a multidisciplinary major which incorporates relevant courses from other disciplines. Based on changes made on those disciplines, the Global Studies Major has been updated.

B. New Catalog Content (Include these even if they have not changed)

1. Provide a list of program content as it would appear in the catalog including required courses, electives, etc., by number and name. Include the number and name for each prerequisite, and all prerequisites of proposed prerequisites. All such prerequisites should be included in the total credit hour calculations for the revised program.
2. New catalog narrative, if any.

All changes appear in red in the attached pages in the right column.

C. Description of Revisions

1. Provide both the current and the revised program requirements.
Place these in two columns, side by side with categories aligned, for easy comparison and a clear identification of each change.
2. For each required and elective course being added to the program, provide the course number, name, catalog description, and a brief statement explaining why the course should be included in the program.

No required course is being added to the program. All the additions are electives and they have been added on the recommendation of the department chairs.

The rationale for including new courses is that they have a global/international content that advances the objectives of the program.

D. Impact of this Program Revision

1. Clearly state the impact of this revised program on other departments, programs, minors, or majors.
No impact
2. It is the responsibility of the department submitting a program proposal to send written notification to the department(s) or program(s) affected. Attach letter(s) of understanding from any impacted department(s).

E. Attach to this proposal a completed

1. Financial and Staffing Data Sheet

2. New and Revised Course and Program Approval Form for this course

You may also need to fill out the MNSCU Program Redesign Application and submit this directly to the VPAA.

This program revision will be implemented in the fall semester following completion of the approval process.

Global Studies - Asian Option (GSAS) - BA Major

BA Major - Global Studies

49 S.H. (No Minor Required)

This major has two parts:

- Part I (Global Perspectives) provides students a general framework that organizes the different aspects of globalization.
- Part II (Regional Perspectives) offers students an opportunity to gain in-depth knowledge about one of the following regions of the world: Asia, Europe, Latin America, or North America.

Students can examine the impact of global developments on the region they choose to study, and conversely, the impact of regions in influencing global forces. The emphasis upon global-regional interaction is the distinguishing feature of this program.

Part I: Global Perspectives

Major Electives (15 S.H.)

Electives (for majors and minors) are organized in the following four categories:

- Global Environment: Courses in this category consider the wholeness of the physical environment of the globe, the potential of its resources to meet human needs, the effects of human activity on the global environment, and the ways in which its resources can be responsibly managed.
- Global Governance: Courses in this category examine whether current international organizations can adequately cope with contemporary problems caused by globalization. These courses also examine efforts by various groups and countries to develop rules, norms, and institutions that can respond consistent with universal standards of human dignity and responsibility.
- Global Society and Culture: Courses in this category explore the emergence of common norms, values, and behavior around the world as a result of globalization and the spread of technology. They also examine expression and culture in different parts of the world and the dynamic of conflict and cooperation between local and global cultures.
- Global Economy: Courses in this category deal with the emergence of the global market economy, the way in which it operates, and the reaction of governments and non-governmental groups.

Students may not count more than nine credits from any one of these categories as credit toward the major.
