

### Composite Technician/Engineer

MINEVILLE NY – Essex Industries, located in the picturesque Adirondack Mountains of Upstate New York, is seeking a motivated, self-driven, enthusiastic individual to join our team in manufacturing high end ultralight composite canoes. The selected applicant will join an established not-for-profit business that has been in continuous operation for nearly five decades. Essex Industries is owned by Mountain Lake Services and offers a competitive salary structure with great benefits and retirement. This is an opportunity to get in on the ground floor in canoe manufacturing and help engineer and build a new line of composite canoes while living in an area that is synonymous with outdoor recreation. Come help us create a line of beautiful canoes that will be cherished by their owners and handed down from one generation to the next. For more information about this tremendous opportunity, call (518) 942-6671 and ask for John Gereau or email [jgereau@essexindustries.org](mailto:jgereau@essexindustries.org).
