Additions or deletions of any class or program must be related and approved by your advisor through the online Program Contract system.

After applying for admission to candidacy, candidates should not enroll at another college or university without the approval of the advisor and the Office of Graduate Studies if expecting to transfer these credits to fulfill graduate degree requirements at WSU. Failure to obtain this approval could result in taking courses which will not be acceptable in your degree program. **The university graduate catalog in effect at the time candidate receives final approval by the Dean of the School of Graduate Studies determines degree and program requirements.**
