

WINONA STATE UNIVERSITY
Graduate Programs in Nursing

*Nursing Leadership Post-Master's DNP Verification of Required
Pre-requisite Coursework*

Directions: Please complete this form to show evidence of the following content and clinical/practicum hours from your Master's program. If you have not taken content for the following three courses (content may be from more than one course), you will need to enroll in them as prerequisites to the DNP courses. A total of 1,000 clinical/practicum hours are required for all graduates of a DNP program. The Leadership DNP program provides 600 hours as a part of the required coursework; the remaining 400 clinical/practicum hours may come from a previous master's degree (appropriateness will be determined by faculty). If additional clinical/practicum hours are necessary to achieve the 400 MS hours, work with your DNP faculty advisor for a plan to meet these hours.

Pre-Requisite Courses Needed for DNP:

STAT 601: Statistical Methods for Health Care Professionals (3 credits minimum)
(prerequisite to STAT 701) (Include all courses taken.)

Course Equivalent from Master's Program: _____
