Composites in a Material World - Mr. Matthew Benson
Biology Major – Becoming a Soil Detective – Dr. Bruno Borsari
English Major – Our Family Stories – Mr. Conan Kmiecik
Global Studies Major – Fun with French? Oui! – Ms. Jeannie Black
Comments from Grandparents

The volunteers were the best!

Excellent instructor!

Instructor was very passionate about the subject and fully engaged the students.

Really enjoyed the trip to the Minnesota Marine Art Museum and was impressed with Professor Black.

Everything was done well.

Comments from Grandchildren:

It was all awesome!

The best part was keeping the earthworms.

The best part was when I made a sheet of carbon fiber.

I want to come back next year.

You should come next year with your grandma or grandpa.
