Winona State University strives to create and maintain a community that respects individual needs, abilities, and potential.

All students, faculty, staff and administrators are encouraged to help make WSU the best institution possible by sharing their experiences and perceptions of campus climate and community culture and safety through a campus climate assessment survey.

**About the Survey**

- A confidential survey designed to measure the inclusiveness and feelings of belonging of WSU students, faculty, staff and administrators.
- All WSU undergraduate and graduate students, faculty, staff and administrators are invited to participate.
- Approximately 20 minutes to complete the survey.
- Participation is voluntary. Do not coerce or incentivize participation (for example with extra credit). Encourage by allowing a time for the survey.
- The survey is primarily online. Contact ACCESS Service or IPAR if the paper version is needed.
- Students who complete the survey are eligible to win one of 50 VISA gift cards ($50 value).
- Responses will be confidential. Participants are encouraged to respond honestly and can skip any questions.
- Results will be analyzed by an external consultant and shared broadly in Fall 2018. Action plans will be developed based on the survey results.

### How Can You Help?

- Share information about this survey with your peer groups.
- Take the survey!
- Encourage others to participate.

### Questions?
