Resolution on CRRSAA Funds Distribution

*Whereas*, Winona State University received a substantial amount of money through CRRSAA.

*Whereas*, all students are struggling during these times between being laid off or not finding enough funding because of COVID-19.

*Whereas*, the university shows full support of all students as some students do not have the financial comfort and support from their parents during these times. Because of this students may have to pay for their education, housing, or basic necessities independently.

*Therefore*, be it resolved, WSUSS strongly urges that Winona State University distributes the stipend fairly among all students, with an emergency fund set up.

*Therefore*, be it further resolved, Winona State University disperses a 60 to 40 split between pell grant students and all other students at Winona State University along with a 10% emergency fund for students who may be dealing with a long term financial burden of the COVID-19 pandemic.
