### Creation of the Textbook Affordability Task Force

*Whereas*, the cost of textbooks is burdensome to many students and accounts for a significant portion of students' expenses

*Whereas*, as least one study has shown that the high cost of textbooks can act as a deterrent to students' academic success

*Whereas*, providing students with more affordable textbook options, while remembering the importance of academic freedom and peer-reviewed material, will allow for greater student success in the classroom

*Therefore be it resolved*, WSUSS and President Reimler, in partnership with WSU Faculty Senate and WSU Administration create a textbook affordability task force

*Therefore be it further resolved*, the membership and operation of the textbook affordability task force may be decided upon its creation by those in attendance at the first meeting
