MIST WIRELESS UPGRADE CONTINUES WITH PROGRESS AND IMPRESSIVE NUMBERS

The WSU ITS Network team made great progress, through the first quarter of 2022, on upgrading the wireless network on campus. Through the end of March improved networking has come to pass as the upgrade implementation has been completed in the following locations: Stark, Science Lab Center, Pasteur, Library, Performing Arts Center, Memorial, Phelps, Minne, Rochester-Downtown, Maxwell, and Somsen. In addition, 25 access points have been installed so far in Kryzsko.

ITS MISSION

Information Technology Services (ITS) provides the technology-based foundation to support and empower the Winona State University (WSU) community to meet and exceed their educational and business needs.

“Tech Quote”

“We're still in the first minutes of the first day of the Internet revolution.”

— Scott Cook – American Businessman

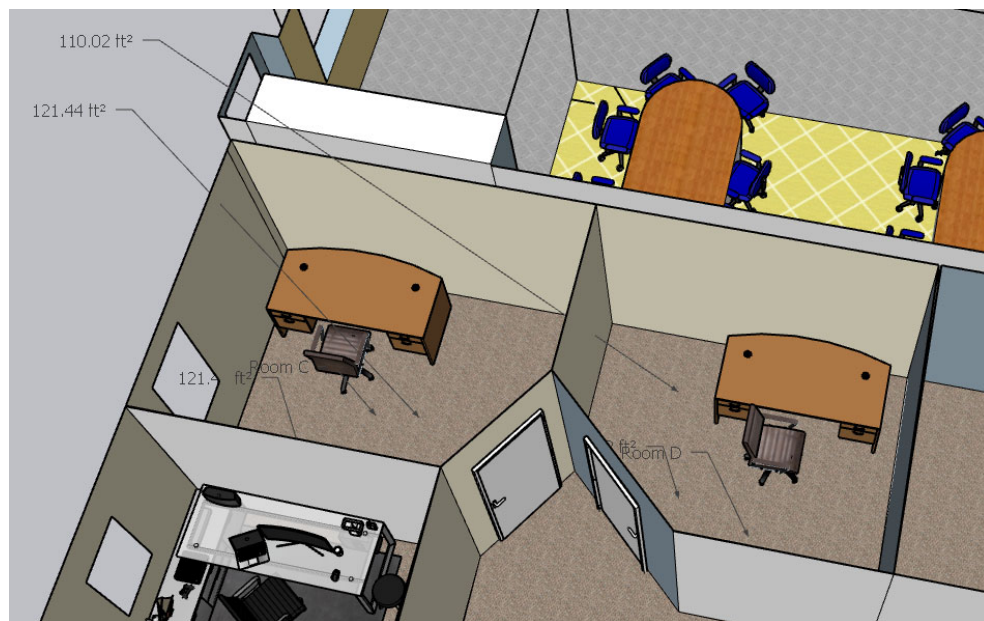

ITS SUPPORTS PROGRAM REVIEW & ACCREDITATION

The IPAR and Data Services teams continue to support program review and accreditation efforts in the College of Education by moving their MTLE (Minnesota Teacher Licensure Examinations) and Common Metrics (yearly surveys conducted as part of the Network for Excellence in Teaching) reporting into a Power BI environment. On the College of Education side, Paula O'Malley and the recently hired Assistant Director for Assessment and Accreditation, Julie Brock, made major contributions to design and testing. The two key values that Power BI provides are the ability to quickly slice test results by program along with an intuitive visual interface.

ITS VISION

Information Technology Services (ITS) endeavors to position the University as a national leader in the innovative and effective use of technology to support the academic enterprise.

NEW ACCESS SERVICES TESTING CENTER IN HEINZ CENTER

ITS worked with AVA Security this week to select cameras and other AV equipment (e.g., cameras for monitoring test takers) for new assistive testing services in Heintz Center 1402 C and D on the Rochester campus. Similar to our testing rooms in Maxwell Hall, this will provide much-needed extended accommodative testing space in support of WSU-R Nursing and other departments. WSU support staff will be able to monitor the room while offering students a comfortable,

quiet space to focus during tests.
