Brief overview of Theme activities and campus impact:

How the Theme addressed the five goals of the University Theme:

1. Facilitate critical thinking and interdisciplinary conversations around a theme across the university community.
2. Increase understanding of the complexity of theme-related topics.
3. Provide curricular and co-curricular programming that crosses disciplinary boundaries and engages students, faculty, staff, and community members from various backgrounds.
4. Partner with the broader community to benefit from local expertise and to model community engaged learning for our students.
5. Provide opportunities for faculty, staff, students, and community members to work in interdisciplinary teams on a theme which inspires passion.
