Gen Ed Goals 1 - 10 require a minimum of 40 total credits, even if students use Double Listed courses to meet more than one category. Students typically apply for admission to the program in semester 3 and start the professional education sequence in semester 4. Once admitted in Semester 4, students are expected to follow the outlined course sequence below unless otherwise advised by an assigned advisor. Therefore, students need to complete most if not all Gen Ed requirements before semester 4 to avoid scheduling conflicts with teacher licensing coursework in the remaining semesters. (Adopted 12/02/19, Effective 8/15/20)
